

*Supplying high-quality British made plant supports to the  
Garden Centre industry for over 40 years.*

# PLANT SUPPORTS

Leander Plant Supports are made from dark green  
PVC coated solid steel rod. They can be used  
singly to prop up leaning stems or grouped  
together around an invasive plant.

Available in Premuin (6mm rod) and  
Economy (5mm rod) ranges, both of which  
sell extremely well from March until October.
